

The Agency organise the project, supervise its delivery or arrange it

It's done and dusted in the 3 days of delivery, with no lasting effect

The project is just an experience with no effect on participants or place. 3 days of delivery are actually just spent preparing for a very short project

Completing a project that is already set up

Fundraising for someone else's charity

MANAGEMENT

OUTCOME

FUNDING

The Team plan, organise and manage the project with the Agency as "customer"

Benefits last for those affected and give team members something impressive to take to CV's and talk about at interview

Brings genuine benefit to people or places/communities

The Team sets up or provides something new that may not have occurred without them

Any funds raised are for the needs of the project
